

TSK 189851 IBM CLOUD ACCOUNT

The screenshot shows the IBM Cloud Dashboard. The top navigation bar includes the IBM Cloud logo, a search bar, and links to Catalog, Manage, and the user profile (SUSHANTH KRISHNAM...). The dashboard features a 'For you' section with several cards: 'Build' (Explore IBM Cloud with this selection of easy starter tutorials and services), 'Create and deploy an application' (Browse our starter kits, and then select one to jump start the process to create and deploy your app), 'Use Cloud Foundry' (Deploy and run your applications without managing servers or clusters with IBM Cloud Foundry), 'Create a Kubernetes cluster' (Automate deployments and manage your containerized apps in a native Kubernetes experience), 'Create an OpenShift cluster' (Deploy apps on highly available clusters with Red Hat OpenShift on IBM Cloud), and 'Get Started with Watson Studio' (Get started with using Watson Studio and Cloud Object Storage in 15 minutes). Below this, there are sections for 'News' (Announcing IBM Cloud Pak for Network Automation Version 2.4), 'Recent support cases', 'Planned maintenance', and 'IBM Cloud status'.

The screenshot shows the IBM Cloud Resource list page. The top navigation bar is similar to the dashboard. The main content area is titled 'Resource list' and features a table with columns: Name, Group, Location, Product, Status, and Tags. The table is currently empty, showing only the column headers. Below the table, there are filter options for each column: 'Filter by name or IP address...', 'Filter by group or org...', 'Filter...', 'Filter...', 'Filter...', and 'Filter...'. The left sidebar contains a list of resource categories: Compute (1), Containers (0), Networking (0), Storage (0), AI / Machine Learning (0), Analytics (0), Blockchain (0), Databases (2), Developer tools (3+), Logging and monitoring (0), Migration (0), Integration (0+), and Internet of Things (1).
